 - Diversity of talent (including a broad range of education, experience, perspectives, and skills) at all levels (board, staff, external managers, and corporate boards) is important

Background

In October 2021, Assembly Bill (AB) 890 was signed into law requiring CalPERS and the California State Teachers' Retirement System (CalSTRS) to submit a report to the California State Legislature (Legislature) commencing on March 1, 2023, and annually thereafter. The bill sunsets on January 1, 2028. According to the bill's author, Cervantes, AB 890 is intended to ensure transparency and promote the inclusion of women and minority owned managers in the asset management industry. Known supporters of the bill include the New America Alliance and Association of Asian American Investment Managers. It is important to note that California state law (enacted through the passage of Proposition 209 in 1996) prohibits state agencies from discriminating against or granting preferential treatment to any individual or group based on

race, sex, color, ethnicity, or national origin in public contracting. As such, CalPERS cannot establish any participation goals for, or provide preferential treatment to, external managers based on race, sex, color, ethnicity, or national origin. Similar restrictions exist under federal law and the US Constitution. CalPERS may, however, collect data and other information regarding diverse characteristics for annual reports to the Legislature. In September 2022, the CalPERS Board approved staff's recommendations for the Emerging Manager Program Objective and the emerging and diverse manager definitions. The Diversity in the Management of Investments (AB 890) 2021-22 and 2022-23 Fiscal Year Reports were delivered to the Legislature on March 1, 2023, and March 1, 2024, respectively.
